

LF16244: Application Reminder

Cummins Filtration has recently been informed of a design change to the lube filter cartridge of the Navistar Maxxforce engine applications. The OEM-Navistar Corporation no longer offers the part number 2596171C1 for the MaxxForce 11, 13 and 15 engines. Effective immediately, please discontinue the use of LF16244 as a cross to the MaxxForce applications. We will notify all customers once a new cross that meets the new design requirements is released for the MaxxForce 11, 13 and 15 engines.

The following are the only engine model applications that are acceptable for the LF16244:
