

Hydraulic Filtration for Case® and New Holland® Equipment

Uncompromising alternatives for lower total cost of ownership.

First to the Aftermarket

When your equipment is down due to unplanned maintenance, that's hard-earned revenue taken away from your bottom line. Fortunately, there are ways to protect against unplanned downtime with Fleetguard's range of filtration solutions.

Fleetguard hydraulic filters are designed to help keep your precision hydraulic- systems running as intended. Cummins Filtration offers Fleetguard hydraulic filtration solutions for a wide array of applications, including several newly released filters specifically for Case® and New Holland®.

These Fleetguard filters meet or exceed the equipment's OEM specifications and are the first aftermarket replacements available on the market today, bringing your operation top quality performance and an all-around unbeatable total cost of ownership.

New Fleetguard hydraulic filters for Case® and New Holland® applications

Equal or improved filtration performance	Lower total cost of ownership	Cost savings over the OEM solutions

Built by the Best Name

Fleetguard products are designed by engineers at Cummins Filtration, the only filter company that's part of an engine company. We know what it takes to maximize your investment in your equipment. And the quality of our products is matched only by the quality of our sales, service, and support. Our worldwide distribution network can find the right solution to meet your needs, quickly, and efficiently.

Backed by the Best Warranty

Unlike our competitors who offer pro-rated coverage, our full warranty protection extends from the point of purchase throughout the recommended service life of the product.

Nothing Guards Like Fleetguard!
